

Internet Safety Workshop

What we will cover today:

- Statistics about internet usage and online safety
- What we do at school
- Practical ways to safeguard your children
- Most common websites and apps
- What to do if your child sees something inappropriate
- Useful Links

Statistics

- 23% of 8 – 11 year olds and 76% of 12 – 15 year olds have a social media profile online
- 90% of children aged 5 – 15 regularly go online
- 40% of 5-15 year olds have their own tablet
- 1 in 4 under 15s has reported seeing something upsetting on a social networking site
- 1 in 4 under 15s has come across racist or hate messages online

What we do at school

- [Share Aware – NSPCC](#)
- [Think u know – CEOP](#)
- [Net Aware - NSPCC](#)
- Reminders about staying safe online at the beginning of every IT lesson
- Assemblies and discussions around using the internet responsibly

Safeguard your children - Stay in control

- Know what your child is doing online
- Create a child account on your home computer
- Set up parental controls on devices and websites
 - [Set up parental controls](#)
 - [Google – parental controls](#)
- Default to safe searches
 - <http://www.kids-search.com/>
 - <https://swiggle.org.uk/>
 - <https://www.safesearchkids.com/>

Safeguard your children - Use technology together

- Regularly talk about online safety
- Remind your children that they can tell you if they come across something they find uncomfortable

<https://www.thinkuknow.co.uk/>

- Discuss what websites and apps you both use
- Evaluate technology experiences
- Play multiplayer games
- Try to ensure they are using technology in sight

Safeguard your children - Know about the Apps and websites your children use

- Popular Apps
- Restrict apps on devices
- Always play apps before they do
- Airplane mode stops the device from connecting to the internet, which in turn stops chat functions, purchases or location data being shared
- Keep your passwords private

What if it goes wrong?

Talk to your child regularly about what they do online. Try to create a safe space for them to come to you when / if they do come across something they don't like. Emphasise that if they find something they shouldn't, you won't be cross. Consider putting time restrictions on your child's usage ([Ourpact](#)).

If you feel the content is abusive, inappropriate for children etc, report to CEOP.
