Intent

Our Humanities curriculum is designed to meet the aims of the National Curriculum by providing a broad, balanced and inclusive education that develops pupils' knowledge, skills and understanding of the world around them. Through the teaching of Geography, History and Religious Education, children explore people, places, cultures, beliefs and significant events from the local area to the wider world. Learning is connected, creative and purposeful, enabling pupils to think critically, ask questions, make meaningful links across subjects and apply their knowledge in real-life contexts. We celebrate the diversity of our school community and encourage pupils to develop respect, curiosity and understanding of different perspectives, preparing them to become informed, responsible and active citizens.

Our Humanities curriculum aims to:

- Develop pupils' knowledge and understanding of the world, both past and present.
- Foster curiosity about people, places, cultures, beliefs and significant historical events.
- Enable children to understand their local community while developing awareness of national and global issues.
- Encourage critical thinking, enquiry and the ability to ask and answer thoughtful questions.
- Provide meaningful and memorable learning experiences through a cross-curricular and experiential approach.
- Help pupils make connections between different areas of learning and apply their knowledge in real-world contexts.
- Celebrate diversity and promote understanding, respect and appreciation of different cultures, histories and beliefs.
- Develop a strong sense of identity, belonging and community.
- Encourage pupils to become informed, compassionate and responsible citizens.
- Equip children with the knowledge, skills and confidence needed to engage positively with an increasingly interconnected world.
