

Dear parents/carers

The school is moving to a paperless and cashless approach. The majority of all letters to parents will be sent via emails and all payments to the school will need to be made via ScoPay accounts. Being paperless is no doubt better for the environment and will also improve the efficiency with how the school communicates to parents and save the school money too. A cashless system means a more secure system of handling money and less time spent banking.

These changes will take effect from Monday 4th June.

We ask that all parents become ScoPay account users before the 4th June deadline. If you would like assistance to open a ScoPay account please speak to the office.

Best wishes
